

Intensity and complexity

WINERY AND VINEYARD

- First mountain viticulture project.
- La Pobla de Cérvoles, at the foot of the la Serra de la Llena mountains (Leida).
- Vineyards located at an altitude of 700 m – 800 m above sea level.
- 55 ha of vineyards on 12 different plots.
- Loam-silt and clay-loam soils with gravel.
- Mediterranean/continental climate: cold and dry with thermal contrasts and winds.
- Low rainfall, 450 mm.
- Result: wines with a high concentration and minerality.

VARIETIES

Macabeo and Chardonnay.

VINEYARDS

The Chardonnay comes from the Cametes vineyard (1960s) and the Macabeo from the Oliveres vineyard (1990s). Late ripening.

PRODUCTION

- Macabeo; fermentation and aging in 3,000 L French oak Foudre.
- Chardonnay; in new 225 L and 600 L French oak barrels.
- Periodic battonage in the first months.
- Aged between 6 and 8 months.

TASTING NOTES

Bright, pale yellow. Gold highlights. Thick legs.
Strong patisserie notes. Smokey notes.
Fresh tropical fruit (grapefruit, Mandarin oranges, pineapple...).
On the palate, its unctuousness and volume stand out.
Toasted notes. Remarkable acidity that makes it fresh.
Honey with lemon and vanilla.
